YAGEO GROUP Brings you

Telemecanique Sensors

Standard Adapted

Standard Adapted

Red Light Infra-Red light

Your sensors, optimized by our dedicated team

Looking to tailor an existing Telemecanique Sensors product ? Contact us!

- Cable
- Connector
- Assembly
- Setting

A full portfolio of sensors and position switches, fully customizable to your requirements : from limit switches and inductive to photoelectric, pressure, ultrasonic, capacitive, RFID, and wiring solutions.

Across the globe, we tailor our solutions to your applications, adaptations such as :
cable length, specialized connectors, head and lever configurations, switching threshold adjustments, labeling, packaging, and much more.

A "Simply Easy" adaptation process :
You define your need—we take care of the rest.
The SAC (Sensors Adaptation Center) team manages the entire process for you, working closely with our factories and R&D: feasibility study, prototyping, pricing, and production.

SAC

From simple adaptations to custom solutions

Our Sensors Adaptation Center combines deep multi-disciplinary expertise and seamless collaboration with Telemecanique Sensors R&D to deliver precisely what your adaptation demands.

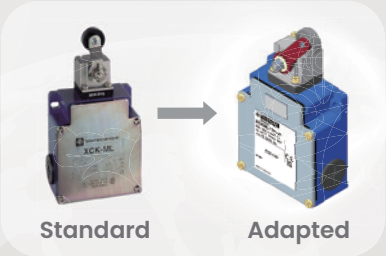
1

From simple adaptations ...

New lever position and orientation.

2

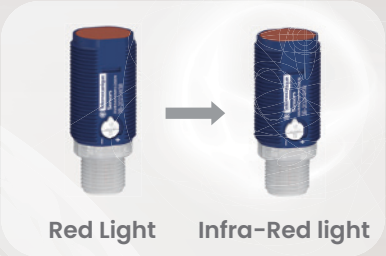
...to ...



Adapted lever.

3

...custom solutions



Work on customer specification.

A "Simply Easy" adaptation process

1 **REQUEST** → 2 **STUDY AND QUOTATION (*)** → 3 **APPROVAL** → 4 **PRODUCTION** → 5 **DELIVERY**

(*) Prototypes can be developed upon request to validate your solution
