

Cybersecurity Support Notice

Telemecanique Sensors products with digital elements

Cybersecurity support end date: **06/2040**

Publication date: **06/2026**

Scope of this notice

This notice applies to the Telemecanique Sensors product with digital elements for which this document is made available on the relevant product webpage, product documentation page, or associated digital product information.

Cybersecurity support period

Telemecanique Sensors has determined a standard minimum cybersecurity support period of 10 years for its products with digital elements that are within the scope of Regulation (EU) 2024/2847, the Cyber Resilience Act.

For products with digital elements to which this notice applies, cybersecurity support is currently provided until **06/2040**

This end date has been set to provide users with a clear cybersecurity support commitment and to ensure that products made available while this notice is current benefit from **at least 10 years of cybersecurity support**.

Cybersecurity support activities

Until the end date indicated above, **Telemecanique Sensors will maintain vulnerability handling activities for the products concerned**, including the assessment of reported vulnerabilities and, where appropriate, the provision of cybersecurity updates, mitigations, security advisories, or other relevant guidance.

The form of remediation may depend on the nature of the product, the cybersecurity risk, the technical feasibility of the remediation, and the intended use environment of the product.

Cybersecurity contact and vulnerability reporting

Product cybersecurity information, vulnerability reporting instructions, and the coordinated vulnerability disclosure policy are available at:
